

Zigbee Wireless Range Extender

The Zigbee Wireless Range Extender is an easy-to-install, plug & play Zigbee USB dongle that can be used to extend the range of Enphase Zigbee Network established between the IQ Gateway, the IQ System Controller (in grid agnostic systems only) and IQ Batteries. Simply insert the Enphase Zigbee Wireless Range Extender dongle into the USB port of a 5V USB power block like ones used for charging cell phones. Power block not included.
