

Declaration of Interconnectivity

Dear customer,

The HQC4 connectors used in Hanwha Q CELLS solar modules

- are designed and suitable to intermate with Multi-Contact's solar connector PV-KBT4 and PV-KST4 ("MC4"),
- when intermated with Multi-Contact MC4, performance is similar with MC4/MC4 mated parts.

Precondition to this declaration is that the respective solar module was properly installed. Any failure of the HQC4 connection which has been caused as a result of improper assembly, mating, misuse of tooling, incorrect wiring termination, or incorrect or inadequate inspection after installation, or failure to comply to the product application requirements, or failure to comply with local or regional government solar industry requirements which affects the HQC4 connection are excluded from this declaration.

As long as the mentioned conditions are respected, Hanwha Q CELLS approves the interconnection of MC4 and HQC4.

The warranty terms and restrictions of the individual contract terms shall apply.

Multi-Contact and MC4 are trademarks of their respective owner.

This document is issued by Hanwha Q CELLS GmbH not in its own name but on behalf of the respective Warrantor as named in the LIMITED WARRANTY FOR CRYSTALLINE PHOTOVOLTAIC MODULES FROM HANWHA Q CELLS. This document shall only clarify the application of the LIMITED WARRANTY FOR CRYSTALLINE PHOTOVOLTAIC MODULES FROM HANWHA Q CELLS and does not in any sense constitute any additional Warranty or an extension of the existing Warranty.
