EU Regulation (EC) No 1907/2006 – REACH

On June 1st 2007, the EU-Regulation REACH (Registration, Evaluation, Authorization and Restriction of Chemicals) 1907/2006/EG entered into force. The purpose of this regulation is to ensure high level protection of human health and the environment. This regulation should manage the risks from chemicals and to provide safety information on the substances .

According to the definition in Art. 3, No.13 in the REACH SMA Solar Technology AG is a downstream user in the supply chain. All products supplied by SMA are classified as articles in accordance to REACH Art.3, No.3 and therefore are exempt from mandatory registration.

REACH requires to inform recipients of articles in accordance to Art.33, if this article contains a Substance of Very High Concern regarding the candidate list in Annex XVII.

Based on the material content certifications provided by SMA Solar Technology suppliers, none of these substances are present in the materials we use in our products, including packing and shipping materials in excess of 0.1% by weight.

The compliance status of the products was confirmed based on the latest 205 substances as updated by ECHA on January 16, 2020.

These statements are based on our current knowledge and on information from our suppliers. We cannot provide guarantees or assume liability for factors outside our knowledge and control.

Please refer to the following ECHA list for the most current candidate list of substances:
